## Moodle: Setting Quizzes for Calculating Subjects

By Ms. Betty Voon Wan Niu

**T**LC has organized a short course entitled “Moodle: Setting Quizzes for Calculating Subjects” on the 25<sup>th</sup> October 2019. The one-day course was conducted by Ms. Betty Voon Wan Niu.

This course was aimed to give a hands-on guide to conduct Moodle quizzes. It started with introduction to question types on Moodle quizzes including calculated, moving text, matching, multiple choice, short answer, true or false, numerical and many more.

The participants were mainly exposed to random quiz setting. The participants engaged with randomized questions, and setting random numbers into the questions. Later, topics involving standard symbols and mathematical symbols were introduced.

The course continued with grading analysis by retrieving students' grades and their responses.

### Participants' Feedback

Genuinely, one of the best workshop I've attended. This workshop is very helpful and educative. Wonderful speaker!

Great effort! Congratulations!

This course is very helpful and useful. Please do a series of courses instead of putting everything in a day. A worked “quiz” or an example would be great.

# Moodle Workshop for COGS Academic Staff

@

A half-day workshop on Moodle was conducted for COGS academics on the 25<sup>th</sup> October 2019. The morning session was attended by most of the COGS academics to expose them to Moodle capabilities as an integrated learning management system. The activities carried out during the workshop include setting a course page, uploading content to the course page, and doing assessments on Moodle. The workshop was facilitated by TLC IT Support, Mr. Ahmad Syafwan Bin Yusoff and Mr. Mohd. Hanif Bin Abu Hassan.

# Asia-Europe Meeting (ASEM) MOOC Stakeholder's Forum 2019

## @ Putrajaya

The Asia-Europe Meeting (ASEM) MOOC Stakeholders' Forum 2019 was held on the 7<sup>th</sup> of November 2019 at Zenith Hotel, Putrajaya. It was hosted by the Universiti Malaysia Pahang (UMP), supported by the Department of Higher Education, MOE Malaysia. The main goal of this forum is to share best practices on

the operation and utilisation of MOOCs and to discuss the operational directions of the initiative.

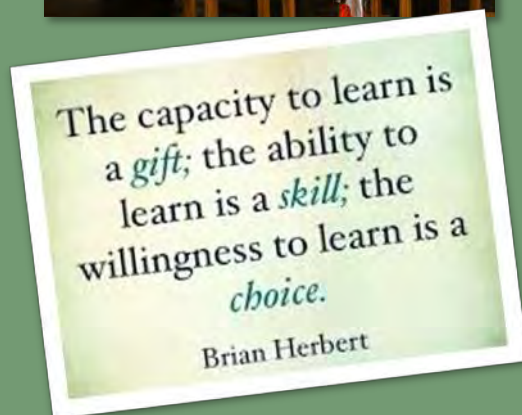

Among the ASEM MOOC Network collaborators this year include Thailand, Japan, Phillipines, Korea and Malaysia. A total of seven presenters shared MOOC practices at their own institutions and in their own countries, paving the way for the adoption of MOOC model structure, policies and plans for implementation followed by forum sessions.

Among the key take-aways from the forum are the forecast of future work skills and the need to develop future-proof skills set. MOOCs will enable flexible learning at UNITEN through a fluid curriculum that allows sharing across fields and institutions. Plans to develop MOOC courses are in the pipeline.

Two representatives from UNITEN who attended the forum were Dr. Thaharah Hilaluddin and Mr. TJ Iskandar Abdul Aziz from TLC.
