Flipped Classroom Workshop

@MJIIT, 15-16 August 2019

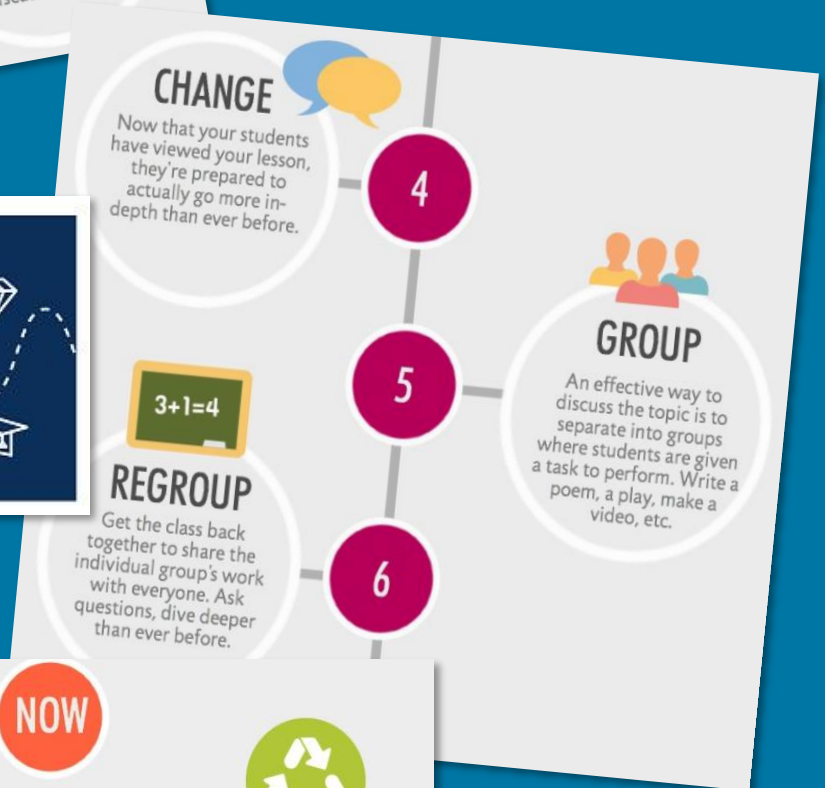

A delegate of UNITEN academics underwent a 2-day workshop on Flipped Classroom at Malaysia-Japan International Institute of Technology (MJIIT), Universiti Teknologi Malaysia, Kuala Lumpur on 15-16 August 2019. This workshop was organized by Society of Engineering Education Malaysia (SEEM).

The philosophy of flipped classroom was introduced, along with the educational tools and technologies that support the learning experience, as well as ways of motivating and supporting students in flipped environment.

The facilitators were Assoc. Prof. Dr. Mohammad Tazli Azizan (Digital Perak Corporation Holdings), Assoc. Prof. Dr. Noreen Izza Arshad and Dr. Khairul Shafee Kalid (Universiti Teknologi Petronas). The workshop focused on flipped-cooperative learning and essential preparation for flipped classroom session.

Active Learning

IN A TRADITIONAL CLASSROOM...

FIRST 10 MINS OF CLASS
70% RETENTION

One study concluded that students retain about 70 percent of what they hear in the first ten minutes of class—and just 20 percent during the last ten minutes. Adding visual aids increased retention by 14-38 percent.

LAST 10 MINS OF CLASS
20% RETENTION
